ICCO Canada Supports Marsilli S.p.A.'s Expansion into Southern Ontario

Toronto, Ontario - The Italian Chamber of Commerce of Ontario Canada (ICCO Canada) is proud to share its ongoing commitment to promote foreign direct investment (FDI) from Italian firms into southern Ontario. This initiative is enabled by Government of Canada support through the [Federal Economic Development Agency for Southern Ontario](#) (FedDev Ontario).

In the upcoming weeks, ICCO Canada will continue to support Italian companies and associations in their journey of expansion within the Canadian market, and [Marsilli S.p.A](#) will be guided in this process.

Marsilli S.p.A., established in 1938 and located in Castelleone (Cremona), is an international leader in creating and producing sophisticated winding and assembly systems for motors and coils. With over 80 years of technological advancements, Marsilli collaborates with sectors including automotive, appliances, electromechanical applications, RFID, and consumer electronics – providing tailored solutions ranging from individual machines to fully automated production lines.

With its global reach and “solution provider” strategy, Marsilli is currently aiming at the Canadian market in collaboration with the Italian Chamber of Commerce in Canada. The organization intends to collaborate with regional OEMs, Tier-1 suppliers, and automation integrators to create a strategic presence in North America. Marsilli will be actively pursuing business development prospects in southern Ontario.
